I. **Level 1**
   comments
    A. Level 2
    B.
       1. Level 3
         a. Level 4
           (1) Level 5
             (a)
               comments
             (b)

II.
   A.
      1.
        a.
          (a)

how can this be? I create a new Level 1. (Not sure if it is style "Column Titles" or "Level 1 Rows") As it should, "II." is created. But note how the labelling (and the indentation) go wrong farther down. (All this worked fine in my "Harvard" template in oo3.)

how does one define a style and apply it? difficult when you don't know if a selected row is subject to a style.

how about when you select "Level 2 Rows" in the styles drawer all the level 2 rows subject to that style are highlighted?

I have spent way too much time on this. I need a Harvard outline template like what's under "I. Level 1" here and have it repeated for II. with the children matching with "I." including the indentation.

Then I need to apply it to the outlines I created in oo3

STYLES

▪ Whole Document
▪ Column Titles
▪ Level 1 Rows
▪ Level 2 Rows
▪ Level 3 Rows
▪ Level 4 Rows
▪ Level 5 Rows
▪ Level 6 Rows
▪ Level 7 Rows
▪ Level 8 Rows
▫ Level 9 Rows
▪ Level 10 Rows
▪ Level 11 Rows
▫ Level 12 Rows
▫ Level 13 Rows
▪ Level 14 Rows
▫ Notes
▫ Column #3
